

Immunization schedules replaced with 2011 CDC schedules.

Added Table: “Vaccines Routinely Administered in the United States.”

Annotations

- 2) Information added around the meaning of recommended vaccines.
- 3) Information on responding to vaccine hesistant patient and parents added.
- 9) Dosing and age information related to Diphtheria and Tetanus Toxoid and Acellular Pertussis was updated. Reference added: *Centers for Disease Control and Prevention, (2011c)*.
- 10) Pentacel information was incorporated into table “Vaccines Routinely Administered in the United States.”
- 12) The list of those at high risk for Hepatitis B exposure was updated.
- 14) ZOSTAVAX® storage information was updated.
- 15) Annotation re-written for clarity and includes updated information on HPV2 and HPV4. Reference added: *Centers for Disease Control and Prevention, (2010b)*.
- 17) Annotation updated with current recommendations. H1N1 information removed from annotation. Reference added: *Centers for Disease Control and Prevention, (2010d)*.
- 19) New age and dosing information regarding Menveo®, Menomune® and Menactra® was added. References added: *Centers for Disease Control and Prevention, (2011c)*; *Arguedas, (2010)*; *Jackson, (2009)*; *Gasparini, (2010)*; *Resisinger, (2009)*.
- 20) Pneumococcal annotation updated to include the new PCV13 and remove PCV7. PPSV23 was updated with current age and dosing information. The Conclusion Grading Worksheets related to Pneumococcal were removed. References added: *Centers for Disease Control and Prevention, (2010c and 2010e)*; *Immunization Action Coalition, (2011)*.
- 21) Severe Combined Immunodeficiency Disease (SCID) was added as a contraindication to Rotavirus. Information related to porcine circavirus was added. Reference added: *Centers for Disease Control and Prevention, (2010a)*.

Aims & Measures

- 1a) Removed as it is a redundant measure.
- 1b) Updated to reflect HEDIS 2011 measure.

2) Removed as repetitive of Aim 1 measures.

3a) Removed as this is not measurable.

Appendices

Moved Appendix A “Recommended and minimum Ages and Intervals Between Doses of Routinely Recommended Vaccines” to front of document.
