

## Summary of Changes Report – March 2007

### Admission for Routine Labor Order Set

---

This order set was added to a new document template so that it could be used as a stand alone document. Additions included: Scope and Target population, Clinical Highlights and Recommendations, Priority Aims, Related ICSI Scientific Documents, Description of Evidence Grading, References, Footnotes, Priority Aims and Measures, and Disclosure of Potential Conflict of Interest. Please see document for the contents of these additions.

#### **Patient Information, Admit/Attending, Diagnosis, Condition**

None

#### **Vitals, Activity, Nursing**

Deleted 'Obtain patient consent for delivery'.

Added the footnote: Intrapartum Care which is annotation #11 from the guideline.

#### **Sedative/Symptom Medication, Medication/Home Medication**

Added Brand names to the generic pain relief and sleep medications (Nubain, Stadol, Vistaril).

Deleted Merperidine and Ampicillin.

Added Morphine.

#### **Lab/Diagnostics**

None
