

1. The document was updated and restructured into seven main parts:
 - Screening
 - Risk Assessment
 - Counseling on Lifestyle Modification
 - Bone Mineral Density Assessment
 - Diagnosis
 - Pharmacologic Treatment
 - Follow-Up
2. A comparison table was added to the screening section to reflect recommendations from the ICSI work group as well as external organizations, including the U.S. Preventive Services Task Force, the National Osteoporosis Foundation, and the International Society for Clinical Densitometry.
3. The algorithm was changed to reflect the new structure of the document.
