

The ICSI Diagnosis and Initial Treatment of Ischemic Stroke Guideline work group has endorsed the stroke content and recommendations from the following AHA/ASA documents:

- ASA/AHA 2013 Guidelines for the Early Management of Patients With Acute Ischemic Stroke (excluding Early Diagnosis: Brain and Vascular Imaging: Recommendations for Patients With Cerebral Ischemic Symptoms That Have Resolved, Intravenous Fibrinolysis, Endovascular Interventions, Volume Expansion, Vasodilators, and Induced Hypertension, Neuroprotective Agents, Surgical Interventions)
- 2015 American Heart Association/American Stroke Association Focused Update of the 2013 Guidelines for the Early Management of Patients With Acute Ischemic Stroke Regarding Endovascular Treatment.
- 2016 Scientific Rationale for the Inclusion and Exclusion Criteria for Intravenous Alteplase in Acute Ischemic Stroke

The original Diagnosis and Initial Treatment of Ischemic Stroke Guideline content has been discontinued.
