

## Announcing the Retirement of Jeyn Monkman

Jeyn Monkman

With full hearts we say good-bye and thank you to Jeyn Monkman, MA, BSN, NE-BC who has retired from her team director position at ICSI after eight years with our organization. During this time Jeyn has successfully led multiple projects, most recently driving a collaborative effort to significantly advance integrated behavioral health (IBH) in primary care throughout Minnesota.

Her experience and expertise across the healthcare continuum in nursing leadership and quality improvement was put to good use at ICSI, as she helped many clinics and organizations navigate and embed important clinical changes including tobacco cessation, chronic condition management, and more.

"It's impossible to quantify the positive impact Jeyn has had on our organization during her time with ICSI," says Dr. Claire Neely, ICSI CEO and President. "Beyond her professional contributions, however, she has been part of the heart and soul of our team, helping us stay connected in so many ways. She will be missed." ## Sanford Health CMO Reflects on the Impact of COVID-19 in South Dakota

Earlier this month Sanford Health Chief Medical Officer and ICSI board member Allison Suttle, MD, reflects on Covid-19's impact in her region, including delayed preventive care and lost hospital revenues, and the urgency of finding sensible solutions to living with a long-lasting pandemic.
